Chemical Plus Service Maintenance

Objective: To sanitize pool and maintain water balance

Services Provided:

A. The following chemicals are tested and adjusted at no extra cost:

- ✓ Chlorine – service performed weekly
- ✓ pH – service performed weekly
- ✓ Total Alkalinity – service performed weekly
- ✓ Cyanuric Acid – Spring, Mid-Summer and as needed
- ✓ Calcium Hardness – Spring, early winter and as needed

B. Pool water chemicals are applied with the weekly services to achieve:

- ✓ Pool water clarity
- ✓ Sanitation and control bacteria on pool water
- ✓ Treatment of all types of algae
- ✓ Maintenance of the proper pool water balance such that the pool is neither corrosive nor scaling

C. Filter Maintenance Service

- ✓ Clean and empty all skimmer baskets weekly
- ✓ Clean filter pump basket weekly
- ✓ Empty automatic pool cleaner bags weekly
- ✓ Empty pool cleaner wall screen as needed
- ✓ Clean cartridge filter \$45.00 additional cost
- ✓ Backwash D.E. filter every 6 to 8 weeks or more often if needed.

Note: If filter needs to be disassembled and cleaned the cost is \$65.00

Note: Chemicals alone will not completely prevent algae growth. The homeowner must run the filter daily, generally 8 hours during warmer months and 4 hours during winter. Regular cleaning and brushing of the pool, keeping the surrounding vegetation and/or dirt out of the pool, along with regular filter cleanings, phosphate treatments and daily filtration is essential in the prevention of algae. Phosphate treatments cost extra.

Weekly service is provided 48 weeks per year. Thanksgiving and Christmas week's service will not be provided in observance of the holiday season as well as all other major holidays.
